Everything For The Home

Let Quality and Character Influence

Your Choice of

Home Furnishings

In buying Home Furnishings it is not at all advisable to allow seemingly low prices to
influence your selections. There are other considerations far more important to insure
the service and satisfaction you desire.

Of these, quality and character—two prime elements making for sound intrinsic value
—should govern your choice of furnishings for your home.

It is for this reason that we now direct your attention to the high quality and true char-
acter of every piece of furniture comprising our present comprehensive displays. Such
quality and character not only distinguish the furniture we sell, but make it worthy of
life-long companionship and usefulness in your home.

Every one knows that prevailing manufacturing and marketing conditions are not con-
ducive to low prices, and nothing in the near future promises any alleviation of these
conditions.

It is possible to assure you, however, that our connections are such we have assembled
the best productions from foremost furniture manufacturers to the best advantage un-
der prevailing conditions, and have scaled our prices in the fairest manner so as to as-
sure our patrons a full measure of quality, service and value.

What we claim for our goods, our service and our prices will prove true under the cru-
cial test of conscientious comparison.
